EUROL UNIVERSAL GEAR OIL

Gearbox oils for most occurring mopeds

Eurol Gearbox Oil is a series of special oils for perfect lubrication of the most occurring mopeds.

Eurol Gearbox oils ensure uncomplicated shifting of straight or bevel geared transmissions.

Eurol Gearbox oils have a high viscosity index, ensuring an optimum protection under both low and high temperature conditions.

TYPICAL PROPERTIES

Density at 20°C	0,8844 kg/l
Viscosity, kinematic at 100°C	11,3 cSt
Viscosity, kinematic at 40°C	103,5 cSt
Viscosity Index	95
Flash point	211 °C
Freezing point	-30 °C

AVAILABLE VOLUMES

E126105 - 350ML

The contents of this document is intended to enable the reader to orient themselves on properties and potential applications of Eurol products. The information in this document can be altered at any time and without notice because of continuous product research and development. The analytical data listed in this product data sheet are typical values. Minor deviations, which may occur during the normal manufacturing process of the product, do not affect the quality of the product. Although this text has been compiled with great care, the compiler accepts no liability for damage caused by incompleteness and / or inaccuracies in the text. The reader is advised to make the final product choice in consultation with the supplier.
